

To Whom it May Concern:

I am writing as someone who has served as an Election judge in Duluth. When I served I did not feel intimidated but this is sadly a different time. I know that in the last election cycle due to intimidation, in a never before turn of events, police were on alert.

Election judges should absolutely feel safe at the polling place. To maintain our democracy, we need citizens to step up to serve as election judges. If there are concerns about intimidation, fewer people may volunteer. There should be consequences for behavior that is intimidating. With that in mind, I urge support of HF 3666.

Thank you.
