

One Minnesota Budget

Admin’s work spans a wide breadth of services to state agencies and the public. The Governor’s budget recommendations reflect Admin’s efforts to clarify ambiguities and help our partners take advantage of federal funding opportunities.

GRANTS CLARIFICATIONS: BUDGET NEUTRAL REQUEST

Making technical corrections and clarifications.

Correct Office of Grants Management Appropriation

The Governor and Lt. Governor recommend a budget neutral correction to the FY 2024 and FY 2025 appropriation to the Office of Grants Management (OGM) to clarify that a portion of the total funds appropriated to OGM is meant for the enterprise grants management system feasibility study, rather than an additional amount. This accurately reflects the legislative intent, and no additional funding is needed.

Capital Cash Grants Clarifications

The Governor and Lt. Governor recommend technical corrections to clarify how general fund capital grants to organizations and government entities are managed.

LEVERAGING FEDERAL FUNDS: BUDGET NEUTRAL REQUEST

Utilizing federal funds for eligible renewable energy projects and electric vehicle fleet purchases.

State Building Renewable Energy, Storage, and Electric Vehicle Account

The Governor and Lt. Governor recommend establishing the State Building Renewable Energy, Storage, and Electric Vehicle Account for agencies to utilize for renewable energy generation and energy storage improvements, and electric fleet vehicle purchases. The account would serve as a home for the funds that come back to Minnesota from the federal “Elective Pay in lieu of tax credits to non-taxed entities” program. The Governor also recommends funding in the capital budget to seed this account.
