**Dear Conference Committee,**

Patients, and Future Registered Designated Caregivers want to send a sincere, “Thank You,” to this conference committee for including a Registered Designated Caregivers Program into the final version of HF 4757.

This community is eager to continue to work with our elected officials in the future for the development of a Caregiver Program. We look forward in helping shape the program to be the best program possible for Minnesota Cannabis Patients, and their Designated Caregivers.

Minnesota Medical Cannabis Patients have asked Minnesota Lawmakers for changes to our Medical Program since 2016, and finally, we have a change.

**Best Regards,**

**Kayla Fearing**
