Research

Wild Bees

Pollinator Habitat

- Minnesota Agriculture for Pollinators Project

Biodiversity

- Bees of Minnesota

Outreach

Pollinator Conservation Action Steps

- Pollinator Education Toolkits directly engage ~100,000 Minnesotans per year
- 180,000 people globally

Pollinator Habitat

- Online interactive educational platform/decision tree

Participatory Science

- Engage Minnesotans to document pollinators

Bees fascinate and inspire. Bee research fosters creative thought and practical solutions.

- Leaders in bee health and habitat research
- Provide public guidance to keep bees healthy & create habitat
- Engage volunteers to educate others and gather data
