

January 17, 2023

Dear Members of the House Health Finance and Policy Committee,

On behalf of more than 10,000 physician and physician-in-training members of the Minnesota Medical Association (MMA), I am writing in support of HF210.

This legislation would allow coverage and reimbursement of postpartum long-acting reversible contraception (LARC) while the patient is still in the hospital immediately following a delivery. The MMA recognizes that LARC is a safe and highly effective for decreasing unintended pregnancy. The use of LARC in the immediate postpartum setting has the potential to provide cost savings and decrease the incidence of adverse maternal and child health outcomes.

The MMA appreciates the committee for taking up this important piece of legislation and urges members to support HF210.

Sincerely,

William Nicholson, MD
President, Minnesota Medical Association
