**Date** March 1, 2024

## Summary

This bill adds three subdivisions to section 151.065, which establishes fee amounts for Board of Pharmacy licensees and registrants.

Section 1 of the bill adds a subdivision requiring a person licensed by or registered with the Board of Pharmacy to submit a new application to the board before relocating the physical location of the person's business. It lists application requirements and specifies that for anyone who paid a fee in full during the fiscal year, the relocation application fee is the same as the already established applicable application fees in the section, while providing some exceptions for fee reductions. Finally, section 1 requires the board to issue a new license or registration upon approval of a relocation application.

Section 2 of the bill adds a subdivision requiring a person licensed by or registered with the board to submit a new application to the board before changing the ownership of the licensee or registrant. The section lists application and fee requirements, as in section 1, and requires the board to issue a new license or registration upon approval of an application for change of ownership.

Section 3 specifies that Board of Pharmacy licenses and registrations are not transferable.
