

**Testimony in Support of House File 4181**

**Elizabeth Emerson, Goff Public, Testifying on Behalf of Polaris**

**Minnesota House Environment and Natural Resources Finance and Policy Committee**

**March 26, 2024**

Chair Hansen and members of the committee:

Polaris has long supported managed ATV trail system investments that are funded by ATV registrations and ATV's portion of Minnesota's state gas tax. ATV recreation also serves as a critical economic driver to small businesses in communities across Minnesota, including those that benefit from the Prospector Loop ATV Trail in St. Louis County.

It is for these reasons that Polaris respectfully urges the committee to report favorably on House File 4181 (Lislegard) related to ATV trail funding.

Thank you for considering Polaris' comments on this important legislation.
