Committee Administrator
Minnesota House of Representatives
Public Safety Finance and Policy Committee

Dear Ms. McDaniel,

I realize that you all feel that you must do something to curb gun violence. More legislation is not the answer. The bills that are being considered will do absolutely nothing to stop gun violence. I enjoy shooting sports and for that you would make me a criminal. I obey the law. Criminals do not. If you do not know much about guns, please take the time to find out more. Make sure the information you get is verifiable, not just rhetoric from the gun lobby. The gun is not the problem. The type of gun is not the problem. The second amendment is just as important as the first, fourth and fifth. Thank you for allowing this testimonial.

Respectfully,
