EXPLANATION OF THE BILL

The five-year rule essentially requires development activity for a tax increment financing (TIF) district to be finished within a five-year period that begins with certification of the district's original tax capacity. After this five-year period has expired, increments may only be spent to pay off obligations that were incurred to fund work done during the five-year period or to the extent permitted under the pooling rules. When these obligations are paid or enough money has been collected to pay them, the district must be decertified.

The proposal extends the deadline of the five-year rule from five years to ten years for TIF District No. 1-22 in Windom. In addition, the city of Windom or its economic development authority may extend duration of the TIF district by five years.

REVENUE ANALYSIS DETAIL

- The proposed changes to this special TIF provision may have an impact on the local tax base and tax rate in the future and may result in a small change in property tax refunds paid by the state.
