

Subject Drill Core Library

Authors Igo

Analyst Janelle Taylor

Date March 10, 2026

## Summary

This bill would allow the Department of Natural Resources (DNR) to temporarily store drill cores at locations other than the state's drill core library when space is limited. It would also allow the DNR to prohibit access to those drill cores to protect public safety and the drill cores from damage. The provision would expire June 30, 2029.
