Bill Description

This bill establishes Minnesota Stat. section 116.943, which would prohibit the manufacture, distribution, and sales of PFAS containing cookware in Minnesota. Under subdivision 3, the Minnesota Pollution Control Agency is also provided enforcement authority under sections 115.071 and 116.072; and may consult with Departments of Commerce and Health. When requested by the commissioner, a person must furnish any information the person may have or may reasonably obtain that is relevant to show compliance with this section.

Assumptions

Work would begin January 1, 2023, halfway into FY23. One FTE will be needed for outreach and education, technical assistance, coordination with other state agencies, random purchasing and sampling and screening of products, and when violations are found, engaging responsible persons for voluntary correction where MN enforcement authority does not exist, and where it does, conducting any necessary enforcement follow-up and complaint response. The MPCA will need to purchase some products for testing, and supplies/equipment and to contract with a laboratory to deliver PFAS screening, extraction and/or analytical techniques appropriate for the covered products and materials.

Expenditure and/or Revenue Formula

Sample purchases \$60/product x 25 products = \$1,500

Lab tests \$500/sample x 25 tests = \$12,500

1.0 FTE = \$133,000

avoid*> *The annual cost of 1.0 FTE is \$133,000 in FY2021-2025. Annual costs for 1.0 FTE include salary, fringe, and non-specialized employee support costs (work space, computer and office supplies, office equipment, local travel, etc.)

Long-Term Fiscal Considerations

The program will continue long-term.

Local Fiscal Impact

There would be no impact to local government.

References/Sources

Staff familiar with similar programs were used to develop cost estimates.

Bill Description

HF2907-1E proposes that no person may manufacture, sell, offer for sale or distribute cookware that contain PFAS.

Assumptions

HF2907-1E identifies the Minnesota Pollution Control Agency (PCA) as the agency of primary responsibility and allows for collaboration with the Department of Commerce in enforcement actions. The Department of Commerce can perform these tasks as part of its regular collaborative activity with the PCA. Commerce assumes no additional resources are required.

Bill Description

The bill bans the manufacture, distribution, offer for sale or sale of cookware containing perfluoroalkyl and polyfluoroalkyl substances (PFAS), effective January 1, 2024.

Assumptions

The bill states “The commissioner [of MPCA] may coordinate with the commissioners of commerce and health in enforcing this section.” MDH assumes that multiple enforcement cases will be brought per fiscal year, requiring MDH to evaluate products to see if they meet the ban definitions, help with consumer and retailer education on the health risks of PFAS, and assess replacement products. MDH partners with MPCA and commerce on similar initiatives and assumes that certain activities, such as development of education materials and notifications to retailers, will take place the year before final date of implementation.
