

**Subject** Allowing use of tax creditable contributions for supportive services in supportive housing

**Authors** Rehrauer

**Analyst** Justin Cope

**Date** April 7, 2025

## Summary

The state provides a credit against income and franchise taxes for certain contributions to the Minnesota housing tax credit contribution account. Under current law, these contributions may only be used for the development of affordable housing. This bill would allow use of the contributions to fund “services necessary for residents to maintain housing stability and maximize opportunities for education and employment” in supportive housing buildings.
