

Dear Education Policy Committee Chair Youakim and members of the committee,

Our eldest daughter had the privilege of choosing which university she wanted to do PSEO through. She chose a faith based college for her two years of PSEO. After high school graduation she went on to attend that same college.

Our next daughter is making plans for next year, her junior year of high school, she would like the same opportunity to select the college of her choice to do her PSEO work. She would like to be able to do the PSEO work at the same school she will ultimately attend for her nursing degree. She has selected a faith based college.

It is very concerning that this bill (HF1269) has language in it that would mean that faith-based universities/colleges could not have PSEO programs. Families and students should have the option to select whichever college they would like to align themselves with.

Thank you for your attention to this matter.

This is my written testimony and I would like it included in the written record,

Katie Campbell
