

Hi Nancy,

As a follow-up to Monday night's listening session, the area I was speaking about what in the City of Sturgeon Lake, as one of the committee members had requested I send you the precinct numbers. The area I was speaking about is precinct 0223 in Pine County. The rest of the city is 0221.

Also, I think it was Mick that has said one possibility was that this area of the city is in a different census tract or block group. I had never thought of that before, and now after looking, that is exactly what it is – the rest of the city is in census tract 9502 and this building is in 9501. This area was annexed into the City limits in 2006. Additionally, this building is a "city island" amongst Township parcels. Anyways, I am really hopeful something can be done!

Sincerely,

*Kelly Schroeder*

Pine County Auditor-Treasurer
