

Subject Menstrual products in schools

Authors Feist and others

Analyst Cristina Parra

Date February 9, 2022

Overview

This bill requires school districts and charter schools to provide students with access to free menstrual products in student restrooms, and increases total operating revenue by two dollars per pupil to cover the cost of the necessary equipment and supplies.

Summary

Section	Description
1	Access to menstrual products. [School health services] Requires a school district or charter school to provide students in grades 4 to 12 with access to menstrual products at no charge. Defines “menstrual products.”
2	Total operating revenue. [General education revenue] Adds \$2 per adjusted pupil unit to a district’s operating capital revenue. The increased revenue is to supply menstrual products.
3	Uses of total operating capital revenue. [General education revenue] Adds the costs of supplies and equipment necessary to provide students free access to menstrual products to the use of total operating capital revenue.
4	Appropriation; additional general education aid for menstrual products. Adjusts the general education aid appropriation for fiscal year 2023 to include the increase in total operating revenue.
