

Minnesota Prescribed Fire Council (MNPFC)

Established 2017

Mission

Protect, conserve, and expand the safe use of prescribed fire in Minnesota

Vision

Grow and sustain an all hands, all lands approach to working with fire for the benefit of Minnesota's fire-dependent ecosystems and communities

Goals

- Promote
 - safe and responsible use of prescribed fire
 - public understanding of the benefits of prescribed fire
 - development and utilization of prescribed fire practices to achieve desired environmental and ecological resource management goals
- Anticipate prescribed fire needs and concerns and suggest best courses of action
- Provide a framework for communications related to prescribed fire objectives, techniques, opportunities and challenges.
- Disseminate technical information on prescribed fire and its application

Steering Committee

- Lake States Fire Science Consortium
- Forest Stewards Guild
- Minnesota Department of Natural Resources
- Private Landowner / Volunteer Burner Representative
- Red Rock Fire / Minnesota Native Landscapes
- The Nature Conservancy
- Three Rivers Park District
- University of Minnesota Cloquet Forestry Center
