

Subject Use of tracking devices on stolen vehicles

Authors Moller

Analyst Jeff Diebel

Date January 31, 2023

Summary

This bill permits law enforcement officers to attach a mobile tracking device to stolen vehicles without prior court approval if the owner of the vehicle either grants consent or reported to law enforcement that the vehicle was stolen. Law enforcement must remove or disable the device after 24 hours or secure court approval to continue to use the device to track the vehicle.
