

# Statewide Snapshot: NOAH Properties, Sales, and Cost Burden

**Hotspots for Property Sales in 2020  
Excluding the 7 County Metro**

**NOAH Hotspots in 2020,  
Excluding the 7 County Metro**

**Cost-burden by county**

The areas featured show the highest point density of either property sales or NOAH buildings. The most significant and central hotspot in both sales and NOAH is in the St Cloud metro area, including Stearns, Benton, Sherburne and Wright counties. Other significant hotspots include: Clay County (the far west hotspot), Fargo; St Louis County (far northeast hotspot), Duluth; Blue Earth, Nicollet, Le Sueur counties (central southwest cluster) or Mankato; Olmsted county (far southeast cluster) or Rochester; Rice and Steele counties (smallest central cluster), cities of Faribault and Owatonna. On the property sales map, the hotspot just immediately southwest of the most prominent hotspot represents the city of Wilmar in Kandiyohi County.
