

My name is Dyana yang, I am 13 years old and I am in 8th grade. I like to sing and draw. I also like playing soccer and enjoy playing the piano from time to time. Working with Ms. Padee has helped with my future because she has helped me seek mental help when I really needed it. She also helped with preparation of highschool. Without her help I really would've lost my life or would've struggled with passing high school. Classes for youth are important because it helps them prepare for the future, the struggles of the future. What can improve is talking more and being aware of mental health, as well as teaching more about bad habits and better coping habits.
