

1.1 Senator moves to amend H.F. No. 2310, in conference committee, as
1.2 follows:

1.3 On R60, House language, (H2310-3)

1.4 Page 182, delete section 49 and insert:

1.5 "Sec. 49. RESOURCE MANAGEMENT; REPORT.

1.6 (a) By July 15, 2025, the commissioner of the Pollution Control Agency must conduct
1.7 a study and prepare a report that includes a pathway to implement resource management
1.8 policies, programs, and infrastructure and submit the report to the chairs and ranking minority
1.9 members of the senate and house of representatives committees with jurisdiction over
1.10 environmental policy and finance and energy policy. The report must include:

1.11 (1) an overview of how municipal solid waste is currently managed, including how much
1.12 materials are generated in the state and are reused, recycled, composted, digested, or disposed
1.13 of;

1.14 (2) a summary of infrastructure, programs, policies, and resources needed to reduce the
1.15 amount of materials disposed of in landfills or incinerators statewide by more than 90 percent
1.16 over a 2021 baseline by 2045 or sooner. The summary must include analysis and
1.17 recommendations of scenarios above Waste-to-Energy on the state's Waste Hierarchy that
1.18 maximizes the environmental benefits when meeting the 90 percent reduction target;

1.19 (3) an analysis of waste prevention program impacts, opportunities, and how much
1.20 additional capacity is needed after prevention for reuse, recycling, composting, and anaerobic
1.21 digestion systems to achieve that goal, and what steps can be taken to implement that
1.22 additional capacity, including working collaboratively with local governments, industry,
1.23 and community-based organizations to invest in such facilities, and to work together to seek
1.24 additional state and federal funding assistance;

1.25 (4) strategic programmatic, regulatory, and policy initiatives that will be required to
1.26 produce source reduction, rethink and redesign products and packaging to more efficiently
1.27 use resources, and maximize diversion from disposal of materials in a way that prevents
1.28 pollution and does not discharge to land, water, or air or threaten the environment or human
1.29 health;

1.30 (5) recommendations for reducing the environmental and human health impacts of waste
1.31 management, especially across environmental justice areas, and to ensure that the benefits
1.32 of these resource management investments, including the creation of good paying green
1.33 jobs, flow to disadvantaged communities that are marginalized, underserved, and

2.1 overburdened by pollution, and that land, water, air, and climate impacts are considered;
2.2 and

2.3 (6) review of feasibility, assumptions, costs, and milestones necessary to meet study
2.4 goals.

2.5 (b) The commissioner must obtain input from counties and cities inside and outside the
2.6 seven-county metropolitan area, reuse, recycling, and composting facilities, anaerobic
2.7 digestion facilities, waste haulers, environmental organizations, community-based
2.8 organizations, Tribal representatives, and diverse communities located in environmental
2.9 justice areas that contain a waste facility. The commissioner must provide for an open public
2.10 comment period of at least 60 days on the draft report. Written public comments and
2.11 commissioner responses to all those comments must be included in the final report."
