## Overview

This act modifies issuance and securement of disability plates and certificates for motorcycles, and provides clarification on disability parking vehicle eligibility. The changes go into effect August 1, 2011.

### Section

- 1**      **Disability plates; application.** Clarifies that (1) a single disability plate is to be issued for a motorcycle (as opposed to two plates for other motor vehicles), (2) the motorcycle disability plate must be the same size as a regular motorcycle plate, (3) various privileges and regulations governing disability plates apply only to those vehicles eligible to bear the plates. Makes technical changes.
- 2**      **Scope of privilege.** Provides for proper display of a disability certificate on a motorcycle through securing it to the vehicle (instead of hanging it on a rearview mirror). Clarifies that the disability parking privileges provision applies only to eligible vehicles that bear disability plates or a certificate.
- 3**      **Identifying certificate.** Mandates issuance of a disability parking certificate that, when issued for a motorcycle, can be readily secured to the motorcycle. Clarifies that the certificate issuance provision applies only to eligible vehicles.
