---

- 1** **Window cleaning safety.** Requires the state building code to require installation of dedicated anchorages for the purpose of suspended window cleaning on new buildings of four stories or greater, and on buildings, four stories or greater, where any reconstruction, alteration, or repair includes the exposure of primary structural components of the roof. Authorizes the commissioner to waive all or a portion of the requirement related to existing buildings, if the installation of dedicated anchorages would not result in significant safety improvements.
