Overview

In September 2014, Governor Dayton established the Governor's Task Force on the Protection of Children to review the existing child protection system and its implementation by state, county, and local agencies. The task force was charged with issuing preliminary recommendations by December 31, 2014, and final recommendations by March 31, 2015. This act amends the Maltreatment of Minors Act in order to implement two of the preliminary recommendations from the task force.
