Overview

This act makes a technical correction to the calculation of median total care-related cost per diem. In the nursing facility payment reform language that was enacted in 2015, the other care-related cost component was inadvertently left out of this calculation.

Section

1

Median total care-related cost per diem and other operating per diem determined.

Amends § 256B.441, subd. 30. Makes a technical correction to the language that establishes the median total care-related per diem (the current language leaves out the other care-related cost component).

Effective date; application. Provides a retroactive effective date of January 1, 2016, and provides that this section expires on the effective date of Laws 2016, chapter 99 (August 1, 2016). Specifies this section prevails over any conflicting amendment regardless of the order of enactment.
