

Chapter 48

2022 Regular Session

Subject Used manufactured home installation

Analyst Anna Scholin

Date April 13, 2022

Overview

Makes modifications to how used manufactured homes may be installed.

Summary

Section	Description
---------	-------------

1	Requirement; used manufactured homes.
----------	--

Requires homes manufactured after June 14, 1976, to bear either a label or a data plate.

Effective date: This section is effective the day following final enactment.

2	Reinstallation requirements for used manufactured homes.
----------	---

Allows licensed residential building contractors to affix installation seals to used manufactured homes, like manufactured home installers can, if the licensed residential contractor has completed three hours of approved related training and submits the course completion certificate to the commissioner of labor and industry.

Effective date: This section is effective the day following final enactment.
