This article makes several changes related to individual income and corporate franchise taxes, including:

- establishing a Minnesota child tax credit and restructuring the state’s existing working family credit;
- allowing a onetime refundable rebate credit of \$260 for single filers, \$520 for married joint filers, and \$260 per dependent for up to three dependents. The credit would be retroactive to tax year 2021;
- expanding the state’s Social Security subtraction and establishing a subtraction for so-called “basic pension” plans which are based on service which does not qualify for Social Security;
- increasing the phaseout rate for individual itemized deductions and the standard deduction;
- expanding the corporate franchise tax base (by repealing the subtraction for GILTI, and modifying the corporate NOL and dividend received deductions);
- establishing, extending, and modifying various business credits (beginning farmer credit, film credit, angel investment credit, historic structure credit, manufactured home park credit, and short line railroad credit);
- adding a one percent tax on net investment income in excess of \$1,000,000; and
- modifying the PTE tax by allowing 100 percent of a resident partner’s income to be used in determining the tax and allowing tiered pass-throughs to elect the tax.

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

Effective date: Tax year 2023 and thereafter.

17 Adjusted gross income: federal adjusted gross income.

For purposes of income tax subtractions and credits, requires that FAGI not include the federal deduction for PTE tax paid.

Effective date: Tax year 2023 and thereafter.

18 Itemized deduction limitation.

Modifies the state limitation on itemized deductions to increase the phaseout rate. The phaseout does not apply to itemized deductions for investment interest, medical expenses, or casualty losses.

In addition to the existing phaseout on itemized deductions—a reduction by three percent of the taxpayer’s adjusted gross income (AGI) in excess of \$220,650—for taxpayers with AGI above \$304,970, itemized deductions would phase a faster phaseout rate of ten percent. In other words, a taxpayer’s itemized deductions would be reduced by three percent of adjusted gross income between \$220,650 and \$304,970 and ten percent of adjusted gross income above \$304,970. For married separate taxpayers, the two tiers of the phaseout would start at one-half the amounts for other taxpayers.

In addition, taxpayers with adjusted gross income above \$1,000,000 would face an immediate 80 percent reduction in their itemized deductions. The \$1,000,000 limitation applies to all taxpayers regardless of filing status.

The \$220,650 and \$304,970 limitations would be indexed for inflation, and the \$1,000,000 limitation would not.

Effective date: Tax year 2023 and later.

19 Standard deduction limitation.

Modifies the state phaseout of the standard deduction in a manner consistent with the treatment of itemized deductions. The parameters for the standard deduction phaseout are identical to the phaseout for itemized deductions described in section 18.

Effective date: Tax year 2023 and later.

20 Standard deduction limitation inflation adjustment.

Conforming change to modify the inflation adjustment for the standard deduction phaseout.

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

Effective date: Tax year 2023 and later.

21 Foreign-derived intangible income (GILTI).

Provides that all deductions under section 250 of the Internal Revenue Code are disallowed, including the federal deduction for global intangible low-taxed income (GILTI).

Effective date: Tax year 2023 and thereafter.

22 Education expenses.

Makes a conforming technical change to the education expense subtraction, to reflect the new location of the definition of “education-related expenses” in the Minnesota education credit section of statute (290.0674).

Effective date: Tax year 2023 and later.

23 Student loan discharges.

Permanently adopts (for taxable years after 2025) the American Rescue Plan Act (ARPA) exclusion for discharged student loans, by allowing a subtraction for discharged student loans which would qualify under the ARPA exclusion.

Effective date: Tax year 2023 and later.

24 Social Security subtraction.

Expands Minnesota’s Social Security subtraction to allow taxpayers with adjusted gross income below \$100,000 (for married joint returns) or \$78,000 (for single or head of household returns) to subtract the full amount of the taxpayer’s taxable Social Security benefits. This change also switches the measure of income used to phase out the subtraction from provisional income to adjusted gross income.

The subtraction would be phased down by ten percent for each \$4,000 of adjusted gross income in excess of the phaseouts mentioned above (for married joint taxpayers the phasedown is ten percent for each \$2,000 of AGI). The thresholds would be indexed for inflation.

The subtraction would be fully phased out at \$136,001 of AGI for married joint filers and \$114,001 for single and head of household filers.

The law also allows taxpayers to continue to claim the state subtraction amounts allowed under the state’s previous version of the subtraction, if those amounts are greater than the new “simplified” approach established in the bill. The amounts for the old law version of the subtraction are not indexed for inflation.

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

Effective date: Tax year 2023 and later.

25 Deferred foreign income.

Makes a clarifying change to the subtraction for section 965 income (deemed repatriation) established in the 2019 conformity bill to the Tax Cuts And Jobs Act (TCJA).

Effective date: Day following final enactment.

26 Qualified retirement benefits subtraction.

Establishes a subtraction for a portion of public pension benefits. The subtraction would apply to pension benefits that were earned based on service for which the member or survivor did not earn Social Security benefits. The subtraction would apply to state or federal pension plans whose members do not qualify for Social Security benefits. The bill defines these benefits as “qualified benefits.”

The subtraction is limited to \$25,000 for married joint filers, and \$12,500 for other filers. The subtraction is phased out beginning at \$100,000 of AGI for married joint filers and \$78,000 for single and head of household filers. The subtraction is reduced by ten percent for each \$2,000 of adjusted gross income above those thresholds.

The subtraction would be fully phased out at \$118,001 of AGI for married joint filers and \$96,001 for single and head of household filers.

Effective date: Tax year 2023 and later.

27 Damages for sexual harassment or abuse.

Provides a subtraction for damage awards for sexual harassment or abuse.

Effective date: Tax year 2023 and thereafter.

28 Special deductions.

Makes a clarifying change to the addition for section 965 income (deemed repatriation) established in the 2019 TCJA conformity bill.

Effective date: Tax year 2023 and thereafter.

29 Deferred foreign income.

Makes a clarifying change to the addition for section 965 income (deemed repatriation) established in the 2019 TCJA conformity bill.

Effective date: Day following final enactment.

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

30 Net investment income tax.

Establishes an additional tax on the “net investment income” (NIIT) of individuals, estates, and trusts. The tax equals one percent of net investment income above \$1,000,000. The income definition used by the tax is the same as the 3.8 percent federal tax on net investment income in excess of \$250,000.

Net investment income includes:

- Interest
- Dividends
- Long- and short-term capital gains
- Rental and royalty income
- Nonqualified annuities
- Income from businesses involved in trading of financial instruments or commodities
- Certain passive business income

The amount of the tax is apportioned based on the share of the taxpayer’s net investment income that is attributable to Minnesota.

Effective date: Tax year 2024 and later.

31 Refund of contributions to political parties and candidates.

Increases the maximum political contribution refund to \$75 for individuals and \$150 for married couples filing jointly. The old law maximums were \$50 and \$100, respectively.

Effective date: Contributions made after January 1, 2024.

32 Pass-through entity tax paid to another state.

Allows a credit for taxes paid to other states for the PTE tax, due to the resident allocation changes in section 14.

Effective date: Tax year 2023 and thereafter.

33 Film production credit.

Expires the film credit beginning in tax year 2031.

Effective date: Day following final enactment.

34 Minnesota child tax credit.

Establishes a refundable state child tax credit equal to \$1,750 per child, with no limit on the number of eligible children. The credit would apply to “qualifying children,” as

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

defined in federal law for the federal earned income credit, except it applies to children 17 and younger only and children without a Social Security number would be eligible.

The credit would be phased out jointly with the restructured working family credit. The combined amount of both credits would be reduced by 12 percent of adjusted gross income or earned income (whichever is greater) in excess of \$35,000 for married couples filing joint returns and \$29,500 for single and head of household filers.

Part-year residents would be eligible based on their residency percentage.

The phaseouts and credit amount would be indexed for inflation, but the inflation adjustments are structured differently. The phaseouts would be increased beginning in tax year 2024 and rounded to the nearest \$10. The credit amount would be increased beginning in tax year 2026 and would be rounded to the nearest \$60.

The law additionally allows the commissioner of revenue to establish a process to allow taxpayers to elect to receive regular advance payments of the credit.

Effective date: Tax year 2023 and later.

35 Dependent care credit.

Allows unmarried taxpayers to claim the “newborn” dependent care credit. The newborn credit deems taxpayers to have the maximum amount of dependent care expenses eligible for the credit if they had a child younger than one at the close of the taxable year.

Effective date: Tax year 2023 and later.

36 Minnesota working family credit.

Restructures the Minnesota working family credit. Under the law, the working family credit would equal four percent of earned income up to \$8,750, for a maximum credit of \$350. The credit would be increased by specified amounts for taxpayers with a qualifying child who is 18-24, and therefore too old to qualify for the Minnesota child credit in section 34 of the bill. The law defines these children as “qualifying older children.”

The law additionally allows taxpayers without a Social Security number (who file their returns with an individual taxpayer identification number (ITIN)) to file and claim the credit.

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

The credit is increased by \$925 for taxpayers with one qualifying older child, \$2,100 for taxpayers with two qualifying older children, and \$2,500 for taxpayers with three qualifying older children.

The credit would be phased down jointly with the child credit in section 34 of the bill. However, for taxpayers with one or more qualifying older children, but no children that qualify for the child credit, the phaseout rate is reduced to nine percent from 12 percent.

The per-child credit amounts and amount of earned income eligible for the credit would be indexed for inflation.

Effective date: Tax year 2023 and later.

37 Minnesota education credit.

Makes the following changes to the Minnesota education credit:

- Changes the income definition used to calculate the credit to adjusted gross income. Under old law, the credit was calculated using a definition of income that was broader than AGI and included certain categories of nontaxable income.
- Increases the starting point for the credit phaseout from \$33,500 to \$70,000.
- Increases the maximum credit from \$1,000 to \$1,500 per child.
- Indexes for inflation the phaseout starting point.

The bill also makes technical changes to the definition of “education-related expenses,” which are intended to clarify and simplify the definition in current law without changing its meaning.

Effective date: Tax year 2023.

38 Credit allowed; current military service.

Makes the credit for military service available per calendar year, not taxable year.

Effective date: Tax year 2023.

39 Sunset (historic structure rehabilitation credit).

Expires the historic structure credit beginning in tax year 2031.

Effective date: Tax year 2023.

Section Description – Article 1: Individual Income and Corporate Franchise Taxes

- 41 Short line railroad infrastructure modernization credit.**
Establishes a credit for railroads for certain railroad infrastructure expenses equal to the lesser of 50 percent of those expenses or \$3,000 per mile of track. A five-year credit carryover is allowed, and the credit would be transferable. The credit sunsets beginning in tax year 2031.

Article 2: Conformity

This article adopts the federal Internal Revenue Code, as amended through March 1, 2023, which incorporates the changes in the SECURE 2.0 Act for state purposes.

In addition, this article makes changes to the federal conformity bill that is Laws 2023, chapter 1, by modifying the residency percentage calculation retroactively to include certain additions and subtractions enacted in that bill and by repealing the subtraction for excess business losses beginning in 2026.

SECURE 2.0 includes a number of broad changes to the way the Internal Revenue Code taxes retirement savings and income. Many of these changes do not affect state liability at all. Others affect liability by changing taxpayer behavior rather than the definition of taxable income—those changes were incorporated into the February forecast as a forecast adjustment. The changes the Department of Revenue has identified as having an effect on state liabilities are as follows:

SECURE 2.0 Section	Provision Summary
114	<p>Deferral of tax for sales of employer stock to employee stock ownership plan sponsored by an S corporation</p> <p>Under current law, an individual who owns stock of a nonpublicly traded C corporation and sells the stock to an employee stock ownership plan (ESOP) may defer the recognition of the gain on the sale under certain conditions. SECURE 2.0 expands this treatment to certain S corporation ESOPs.</p>
115	<p>Withdrawals for certain emergency expenses</p> <p>Allows individuals to take penalty-free distributions from tax-preferred retirement accounts to pay for “unforeseeable or immediate financial needs relating to personal or family emergency expenses.” Only one distribution per year of up to \$1,000 is allowed, and individuals may repay the distribution within three years. If a taxpayer makes such a repayment, the distribution is treated as a rollover distribution and not subject to tax.</p>
116	<p>Allow additional nonelective contributions to simple retirement accounts</p> <p>Under current law, employer contributions to SIMPLE retirement accounts are limited to two percent of compensation or three percent of employee elective deferral contributions. SECURE 2.0 allows employers to make additional contributions, up to the lesser of ten percent of compensation or \$5,000.</p>
126	<p>Special rules for certain distributions from long-term qualified tuition programs (529 plans) to Roth IRAs</p> <p>Allows beneficiaries of a section 529 qualified tuition plan to make tax- and penalty-free rollovers from the 529 plan to a Roth IRA.</p>
307	<p>Onetime election for qualified charitable distribution to split-interest entity; increase in qualified charitable distribution limitation</p> <p>Allows a onetime \$50,000 charitable distribution from an IRA to a “split-interest” entity, which the bill defines as certain charitable remainder annuity trusts, certain charitable remainder unitrusts, or certain charitable gift annuities. The bill also indexes for inflation the \$100,000 limitation on qualified charitable distributions.</p>
309	<p>Exclusion of disability-related first responder retirement payments</p> <p>Beginning in TY 2027, excludes from gross income certain service-connected disability pension payments. The exclusion applies to service as a law enforcement officer, firefighter, paramedic, or emergency medical technician.</p>
331	<p>Special rules for use of retirement funds in connection with qualified federally declared disasters</p> <p>Permanently allows taxpayers affected by a federally declared disaster to take a penalty-free distribution of up to \$22,000 from an employer retirement plan or IRA. The distribution is included ratably in gross income over three years. The provision additionally allows individuals who previously took a retirement account distribution to purchase their home to recontribute the amount withdrawn. The provision applies to individuals residing in a federally declared disaster area who sustained an economic loss as a result of the disaster.</p>

605	<p>Charitable contribution easements Disallows the charitable contribution deduction for a partnership making a qualified conservation contribution, if the value of the deduction exceeds 2.5 times the sum of each partner's basis in the partnership. SECURE 2.0 provides exceptions to this limit for certain property held longer than three years, family partnerships, and contributions to preserve historic structures.</p>

Effective date: This section is effective the day following final enactment.
- 3 Annual financial reporting.**
Removes from the list of information that authorities must report to the Office of the State Auditor the month in which an authority first receives, or expects to receive, increment.
Effective date: This section is effective the day following final enactment.
- 4 Limitation on administrative expenses.**
For the purposes of calculating the allowable amount of administrative expenses, excludes from the calculation of total tax increment those amounts paid to the county auditor either as excess increment or as remedies for unlawfully including or keeping a property in a TIF district. Exempts from caps on administrative expenses money which is: (1) from selling or leasing property purchased by the authority using increment; and (2) spent on maintaining these properties, including reserves for repairs and insurance costs.
Effective date: This section is effective the day following final enactment and applies to all districts, regardless of when the request for certification was made.

Expands from county road costs to all county costs the amount to be deducted from the increment before calculating the in-district and out-of-district percentages of increment. payments for using increment on impermissible projects or areas) to be expenditures within the district for the purposes of pooling limits.

7 Five-year rule.

Removes an obsolete reference to public infrastructure projects. Removes expenditures on affordable housing from those listed as complying with the five-year rule.

Effective date: This section is effective the day following final enactment and applies to all districts with a request for certification date after April 30, 1990.

8 Use of revenues for decertification.

Allows deferral of decertification for individual parcels whose increment is pledged to pay off a pay-as-you-go contract and note for in-district expenditures but requires decertification of unpledged parcels. For those districts for which the out-of-district percentage of increment has been increased by up to ten percent to fund affordable housing projects, defers decertification until the amount of increment eligible to be expended for housing purposes equals either the amount of the increase elected for in the tax increment financing plan or the ten percent maximum.

Effective date: This section is effective the day following final enactment and applies to all districts with a request for certification after April 30, 1990, except that the provisions allowing deferral of decertification for pay-as-you-go contracts and notes apply only to districts for which the request for certification was made after the day following final enactment.

Also adds language that states that refunds are meant to approximate the tax paid on the reservation by Tribal members, or the amount they would have paid on the

reservation if there was no agreement. Also gives instructions to the commissioner on how estimates should be calculated.
