5 Annual report to the legislature.

Requires the Guardian Ad Litem Board to submit a report to the legislative committees with jurisdiction over judiciary finance identifying the number of: board staff; children served by guardians ad litem in court cases, including the number of Native American children in certain cases; court reports filed by guardians ad litem; cases assigned; hours worked; complaints regarding guardians ad litem submitted to the board; investigations performed by the board; and complaints that resulted in discipline. This section requires that the information not include data on individuals, but requires that the data be disaggregated by paid staff versus volunteers.

6 Persons authorized to perform civil marriages.

Requires any person who wants to officiate a civil marriage to register as a civil marriage officiant and removes all other requirements or references to individuals who are currently authorized to perform civil marriages, including judges and licensed or ordained ministers of any religious denominations.

7 Form.

8 Term of license; fee; premarital education.

Modifies the definition of “custodian” for orders for protection from any person who is under a legal obligation to care for a minor child or who is caring for a minor child to a person who has physical or legal custody as the mother of a child, a person who

Section Description – Article 11: Civil Law

- has court ordered custody or parenting time, or who has physical or legal custody with the consent of a custodial parent.
- 13 **Bill of rights for persons subject to guardianship or conservatorship.**
Modifies a guardian's ability to restrict communication and visitation for a person subject to guardianship. Under current law, a guardian may not restrict the right to communication and visitation for a person subject to guardianship unless the guardian has good cause to believe that the restriction is necessary because the interaction poses a risk of significant physical, psychological, or financial harm to the person subject to guardianship, and there is no other means to avoid such significant harm. Now the guardian must show that the interaction poses a substantial risk of significant harm and require the guardian to first seek limited restrictions whenever possible. For all restrictions, the guardian must notify the court, the person subject to guardianship and their attorney, and the person subject to the restriction within 48 hours of imposing the restriction. The notice must include a description of the restriction, and any limited restrictions attempted.
- 14 **Emergency guardian.**
Requires the court to make a finding that the petitioner made good faith efforts to provide notice to the respondent or respondent's lawyer before appointing an emergency guardian without giving notice to the respondent or respondent's lawyer. This section also provides that the mere fact that the respondent is a patient in a hospital or resident of a facility is not alone sufficient to support a risk of substantial harm to the respondent's health, safety, or welfare.
- 15 **Powers and duties of guardian.**
Consistent with the changes in section 13, this updates the powers and duties of a guardian to require a less restrictive alternative before limiting communication between a person subject to guardianship and another person and requires notice to the court if they do limit communication.
- 16 **Order for protection against financial exploitation of a vulnerable adult.**
Creates an order for protection that a petitioner can file against another person to prevent the financial exploitation of a vulnerable adult. This section provides the process to obtain the order for protection, and the relief the court can grant, and imposes criminal penalties for violations of an order, and subsequent violations.
- The petition for an order may be filed in the county where the petitioner, respondent, or vulnerable adult resides. The filing fees are waived for both parties to the order. The court must hold a hearing within 14 days of receiving the petition unless a temporary ex-parte order is issued. Service must be made in the same manner as service for orders for protection under section 518B.01. This section also requires service upon the vulnerable adult if the petitioner is not the vulnerable

Section Description – Article 11: Civil Law

adult. If service on the respondent is not possible as provided under section 518B.01, the petitioner may serve the respondent using the same method used to contact the vulnerable adult and provide the court with the reasons why service was not possible under section 518B.01.

Unless previously filed, the petitioner must file a maltreatment report within 24 hours of filing a petition under this section.

The court may issue an order if the vulnerable adult is or is in imminent danger of becoming a victim of financial exploitation, there is a likelihood of irreparable harm and nonavailability of an adequate remedy, the threatened injury to the vulnerable adult outweighs the possible harm to the respondent, and an order protects the vulnerable adult's financial security.

This section provides specific relief that the court may grant, including prohibiting direct or indirect contact, freezing the vulnerable adult's assets, and providing necessary directives to law enforcement. This section is effective January 1, 2026.
