

Chapter 79

2026 Regular Session

Subject Notification of Wastewater Pollutant Discharges

Bill H.F. 4224

Analyst Janelle Taylor

Date May 7, 2026

Summary

This act amends a law passed in 2023 that added notification requirements when there is a pollutant discharge from a publicly owned water treatment facility or a publicly or privately owned domestic sewer system. This act adds downstream Tribal governments to the list of those required to be promptly notified. The addition was recommended by the Pollution Control Agency.
