---

### Overview

The bill makes technical changes in the Government Data Practices Act.

Sections 1 to 28 make one or both of the following changes throughout the act: (1) "agency" is changed to "entity" or (2) variations on the string of terms "state agency, statewide system, and political subdivision" are changed to "government entity".

Section 29 creates a new subdivision that relocates existing section 13.04, subdivision 5. Section 31 repeals the subdivision that was re-located by section 29.

Section 30 corrects terminology by changing "confidential" to "not public."
