### Overview

Early Childhood Family Education (ECFE) is a program for all Minnesota families with children between the ages of birth to kindergarten entrance. The program is offered through Minnesota public schools. ECFE's goal is to enhance the ability of all parents to provide the best possible environment for their child's learning and growth.

School Readiness is a public school program open to Minnesota children age 3 years to kindergarten enrollment. Usually, children are identified to participate in the program through Early Childhood Screening. School districts offer early childhood education programs and services unique to the needs of children and the resources in their communities. The goal of School Readiness is to help preschoolers enter school with the skills and behaviors necessary to be successful in future learning.

Head Start is a full-service program for preschool children and their families. Head Start primarily serves three and four year olds from low-income families. Some agencies also provide a program for infants, toddlers and pregnant mothers. All local Head Start programs must reserve space (at least 10%) for children with disabilities. Head Start services include education, health, nutrition, mental health and social services.
