Overview

This bill makes changes, effective retroactively from August 1, 2005, in the deposit of certain license plate and registration revenue so that the funds are deposited in the vehicle services operating account instead of the highway user tax distribution fund.

Section

- 1** **Registration period extension for leased vehicle.** Modifies the deposit of certain funds related to extending the registration period of a vehicle that is being leased for at least one year, so that (1) a \$5 administrative fee goes to the vehicle services operating account instead of the highway user tax distribution fund, and (2) the prorated registration tax goes into the highway user tax distribution fund.
- 2** **Fees; disposition.** Amends the deposit of fees for disability plates, so that the funds are deposited in the vehicle services operating account instead of the highway user tax distribution fund.
- 3** **Collector plate transfer.** Amends the deposit of a \$5 fee for transferring certain collector plates, so that the funds are deposited in the vehicle services operating account instead of the highway user tax distribution fund.
- 4** **Replacement plates.** Amends the deposit of a \$1 fee for duplicate plates, so that the funds are deposited in the vehicle services operating account instead of the highway user tax distribution fund.
- 5** **Special plates or certificate; fee; proceeds to highway user fund.** Amends the deposit of a \$10 fee for plates or certificates for certain intercity buses, so that the funds are deposited in the vehicle services operating account instead of the highway user tax distribution fund.
- 6** **Effective date.** Makes sections 1 to 5 effective retroactively for fees collected on or after August 1, 2005.
