Section

- Regulation of storm water discharges. Permits the agency to develop standards or other tools to enable and promote low impact development and other storm water management techniques and provides a definition of "low impact development" for purposes of the section.
- Appropriation; design standards for storm water runoff. Appropriates \$500,000 from the clean water fund to the PCA to develop minimal impact standards for urban storm water runoff and requires the PCA to submit a report to the legislature on the expenditure of the funds by January 12, 2012.
