- Under current law, grants for operations costs are limited to the amount of Minnesota-based contributions received by a station in the prior fiscal year. Also under current law, in calculating the amount of contributions received by a station, that portion of a foundation or corporate donation in excess of \$500 is excluded. This section provides that the exclusion applies to that portion of the foundation or corporate donation in excess of \$2,500, instead of \$500.
- This section also provides for stations receiving grants to report to the commissioner annually by August 1, instead of July 1, along with a new grant request submission, on the purposes for which the grant money was spent. This section strikes the requirement that the report be certified by an independent auditor or certified public accountant. A later section of this bill provides a new additional reporting requirement.
