### Section

1        **Reports.** Under current law, within 30 days of completion of a contract for professional or technical services over \$50,000, the executive agency entering into the contract must submit a one-page report to the commissioner of administration on specified topics relating to the contract. This bill:

- changes the \$50,000 threshold to \$25,000; and
- strikes the requirement that the report be “one-page,” and provides that the commissioner of administration must make the report available online.

The bill also requires that a yearly listing of professional or technical services contracts (required under current law) be submitted to ranking minority members (in addition to the chairs) of the house Ways and Means and senate Finance Committees.
