Article 1: General Education

Section

- 1 Permanent school fund reporting.** Directs the commissioner to report to the Permanent School Fund Advisory Committee and the legislature on the amount of the permanent school fund transfer and information about fund investments. Clarifies that the State Board of Investment must report to the advisory committee on how it maximized fund investments.
- 2 School calendar.** Allows a school district that is cooperating with a district that has a \$400,000 construction or remodeling project to also begin the school year before Labor Day.
- 3 Effective staff development activities.** Expands the definition of staff development activities to include basic first aid training, focusing on CPR and the use of automatic external defibrillators (AEDs), and boiler operator training.
- 4 Staff development revenue.** Authorizes a school district to use a portion of its staff development revenue for basic first aid training, focusing on CPR and the use of AEDs

before making the staff development allocations to school sites. Authorizes a school board to use a portion of its share of staff development revenue for boiler operator training.

- 5 **Statement for comparison and correction.** Changes from January 15 to February 15 the date by which the commissioner must convert audited financial data into a consolidated financial statement format that is published on the Minnesota Department of Education Web site.
- 6 **Failure to limit expenditures.** Changes from January 15 to February 15 the deadline for reporting school districts in statutory operating debt to the legislature.
- 7 **Nonresident tuition rate; other costs.** To avoid billing confusion, excludes compensatory revenue from tuition billing calculations for cooperatives.
- 8 **Foreign exchange pupils.** Allows school districts to count as resident pupils those foreign exchange students enrolled in a district under a cultural exchange program registered with the Secretary of State's office.
- 9 **Building allocation.** Allows the Minnesota Department of Education to pay compensatory revenue directly to cooperatives.
- 10 **Separate accounts.** Directs cooperative units to maintain separate accounts for basic skills revenue.
- 11 **Referendum revenue.** Increases the required number of signatures on a petition to place a question before the voters to revoke or reduce an operating referendum from 15 to 30 percent of registered voters in the district.
- 12 **Lease purchase; installment buys.** Makes changes that allow certain school districts to use levy proceeds to acquire property.
- 13 **Retired employee health benefits.** Clarifies the existing levy authority for certain retiree health benefits to reflect the 2008 changes. Creates a new levy for school districts to fund the annual costs associated with OPEB expenses. Requires a school district to: create an actuarial liability to pay for the benefits; eliminate the postemployment benefits from the current collective bargaining agreement; and apply for the levy authority in the form and manner established by the commissioner of education. Limits the total amount of the annual levy to not more than \$24 million for taxes payable in 2010, \$50 million for taxes payable in 2011 and an amount equal to the previous year's levy plus \$19 million for taxes payable in 2012 and later.
- 14 **Safe schools levy.** Modifies the maintenance of effort requirement for school districts that make a safe schools levy. Current law requires districts to maintain at least the same level of spending for licensed school counselors, licensed school nurses, licensed school social workers, licensed school psychologists, and licensed alcohol and chemical dependency counselors. This section allows the maintenance of effort to be calculated on either a full-time employee basis or a total dollar basis.
- 15 **Alternative attendance programs.** To avoid billing confusion, excludes compensatory revenue from tuition billing calculations for cooperatives.
- 16 **Approval by electors; exception.** Limits the exception from voter approval for OPEB bonds to municipalities other than school districts (this means that a school district may still create an OPEB trust and fund it with bond proceeds, but only after an election to approve the sale of the bonds).

Makes the section effective for bonds sold after August 1, 2009.

- 17 **Early graduation incentive program working group.** Creates a working group to study the effects of an early graduation incentive program. Sets the group's membership. Defines the duties of the working group to include an analysis of the potential cost savings of an early graduation incentive program. Requires a report to the education committees of the legislature by January 15, 2010.
- 18 **General education revenue; federal funds replacement.** Allocates \$275.6 million of federal funds from the fiscal stabilization account to school districts to replace the same amount of state aid.
- 19 **Appropriations; general fund.** Appropriates state general fund money for general education aid, enrollment options transportation, abatements, consolidation programs, nonpublic pupil aids, nonpublic pupil transportation aids; compensatory revenue pilot projects, and for the Angle Inlet, Rushford-Peterson, and Lancaster schools.
- 20 **Appropriations; federal funds.** Appropriates the K-12 share of the federal stimulus funds from the federal fund account to the commissioner of education.

10 Statewide testing and reporting system.

Subd. 1. Statewide testing. (a) Provides for computer-adaptive reading and math tests for general education students in grades 3 through 8 that are aligned with the state’s academic standards and include both multiple choice and constructed response questions. Directs school districts identified by the commissioner to participate in field testing. Directs districts issuing high school diplomas in the 2009-2010 through the 2013-2014 school years to record the total number of GRAD test items and the student’s reading and math GRAD scores on the student’s high school transcript. Also allows a school board to include a notation of high achievement on students’ high school diplomas indicating exemplary academic achievement during high school based on board-established criteria.

(b) Directs the commissioner to use fully-adaptive tests to the extent no net loss of

federal and state funds occurs and to otherwise use partially-adaptive assessments to meet federal accountability requirements.

(c) For purposes of federal accountability requirements, directs the commissioner to implement computer-adaptive reading and math assessments for grades 3 through 8, state-developed high school reading and math tests aligned with state standards, and science assessments. Prohibits the commissioner from requiring students to achieve a passing score on high school science assessments in order to graduate. Lists requirements for annual computer-adaptive assessments: (i) make individual student performance data and achievement and summary reports available within three school days; (ii) make individual student data available from the first assessment to each proximate assessment using a constant measurement scale; (iii) allow parents, teachers, and school administrators to use elementary and middle school student performance data to project student achievement in high school; and (iv) use diagnostic information about areas of students' academic strengths and weaknesses to improve student instruction. When contracting for computer-adaptive assessments, requires that the weighting criteria the commissioner uses to evaluate contract proposals must give preference to vendors prepared to provide statewide computer-adaptive assessments and options for locally-selected, locally-financed, and locally implemented assessments that are independently aligned to state standards and used to inform curriculum and instruction.

(e) Requires assessment results to include a value-added growth indicator of student achievement.

(g) Requires schools, school districts, and charter schools to administer statewide assessments to evaluate student proficiency in the context of the state's grade-level academic standards.

Makes the temporary alternative to the state's reading and math GRAD tests applicable in the 2009-2010 through 2013-2014 school years. Prohibits the commissioner from implementing any alternative to the state's reading and math GRAD tests without specific legislative authority. Makes computer-adaptive math tests for grades 3 through 8 apply in the 2010-2011 school year and later and computer-adaptive reading tests for grades 3 through 8 apply in the 2012-2013 school year and later.

Allows this model to be used to advance educators' professional development and replicate programs that meet students' diverse learning needs. Declares that data on individual teachers generated under this model are protected personnel data.
