Overview

This bill requires the commissioner of health to study and make recommendations related to simplifying health care transactions.

Section

- **Developing technology standards and tools.** Requires the commissioner of health, in consultation with certain others, to study and make recommendations as to the following:
 - Feasibility and barriers to establishing a single, standardized system for all group purchasers for certain health care transactions;
 - Possible technologies related to the e-prescribing requirements specified in Minnesota Statutes, section 62J.497;
 - Ensuring use of technologies by providers and group purchasers is consistent with national standards;
 - Readiness of providers and group purchasers to implement appropriate technologies, and;
 - Prioritizing implementation of specific technologies in relation to provider and health plan efforts to meet certain electronic transaction requirements.
