Overview

Removes the wind energy production tax from the aids and levies included in the base used to calculate levy limits for cities with a population of 2,500 or more and for counties. All sections are effective beginning with property taxes levied in 2009, payable in 2010.

Section

- 1 Levy aid base.** Removes the wind energy production tax from the aids and levies included in the levy limit base used in calculating levy limits in the first year they are imposed on a city or county.
- 2 Levy limit base.** Corrects the starting point for calculating the Pay 2010 levy limit by removing the Pay 2009 wind energy production tax.
- 3 Property tax levy limit.** Removes the wind energy production tax deduction used to calculate the final levy limit since it is no longer included in the adjusted levy limit base.
