Overview

Requires the state to enter into contracts for state building efficiency, state fleet management improvements, tax fraud prevention and analytics, and Medicaid fraud prevention and detection.

- 1 State building efficiency.** Requires the commissioner of administration to issue a request for proposals and select a vendor by September 1, 2011, for a contract to provide recommendations for efficiencies in state building management. Provides that the RFP must:
 - require the vendor, at no cost to the state, to begin work by implementing its proposed system on one to three state buildings to demonstrate savings; and
 - require the state to implement the system provided by the vendor in all buildings owned by the state if work done under the proof of concept phase provides material savings.
- Requires the vendor to be paid from savings attributable to work done by the vendor, according to terms and performance measures negotiated in the contract.
- 2 Fleet management improvements.** Requires the commissioner of administration to issue a request for proposals and select a vendor by September 1, 2011, for a contract to improve state vehicle management. Provides that the RFP must:
 - require the vendor, at no cost to the state, to begin work by implementing its proposed system on one vehicle maintenance facility on a sample of vehicles to demonstrate savings; and
 - require the state to implement the vendor's recommendations if work done under the proof of concept phase provides material savings.

Requires the vendor to be paid from savings attributable to work done by the vendor, according to terms and performance measures negotiated in the contract.

- 3 Tax fraud prevention and analytics.** Requires the commissioner of revenue to issue a request for proposals and select a vendor by September 1, 2011, for a contract to prevent and detect tax fraud and

increase delinquent tax revenue collection. Provides that the RFP must:

- require the vendor, at no cost to the state, to implement its recommendations on a subset of data provided by the commissioner to demonstrate cost-savings potential; and
- require the state to implement the vendor's recommendations if work done under the proof of concept phase provides material savings.

Requires the vendor to be paid from savings attributable to work done by the vendor, according to terms and performance measures negotiated in the contract.

4 **Medicaid fraud prevention and detection.** Requires the commissioner of human services to issue a request for proposals and select a vendor by September 1, 2011, for a contract to prevent and detect Medicaid fraud and mispayment. Provides that the RFP must:

- require the vendor, at no cost to the state, to implement its recommendations on a subset of data provided by the commissioner to demonstrate cost-savings potential; and
- require the state to implement the vendor's recommendations if work done under the proof of concept phase provides material savings.

Requires the vendor to be paid from savings attributable to work done by the vendor, according to terms and performance measures negotiated in the contract.
