Overview

This is the annual omnibus liquor bill.

Section

- 1 Brewer taproom license. [Hilstrom; HF 266]** This provision allows a city with municipal liquor to also allow a taproom license, correcting a technical issue in the bill.
- 2 Microdistilleries. [Franson; HF 940, modified in Commerce Committee.]** Allows microdistilleries to give samples from as many kinds of distilled liquors they wish, as long as those are manufactured on site, and as long as the total amount sampled is limited to 15 milliliters, in total, for each person.
- 3 Small brewer license. [Dehn, HF 1198, modified in Commerce Committee.]** Allows small brewers to sell Growlers, which are 64 ounce containers, or bottles containing 750 milliliters, of their brewed products. Allows municipalities to charge a licensing fee.
- 4 Interest in other business. [HF 1198.]** Technical to conform to Section 3 changes.
- 5 Permitted interests in wholesale business. [HF 1198]** Decreases the amount of product a brewer may make, and still self-distribute their own product. Currently this is set at 25,000 barrels, and now the cut-off is at 20,000, with provisions phasing out self-distribution.
- 6 Wine or malt liquor educator; on-sale license. [Davnie, HF 182].** Establishes a malt liquor educator license, modeled on the existing wine educator license, allowing persons meeting educational and certification standards to be a malt liquor educator to provide malt liquor as a part of their business model. Allows local governments to require licenses.
