---

Appropriates an unspecified amount from the general fund to the Metropolitan Council for a grant to the city of Hugo to pay for a study of the feasibility of establishing a regional sewer, water, or sewer and water system. The appropriation is contingent on at least five of the six cities each adopt a resolution to cooperate with each other in conducting the study—Hugo, Centerville, Circle Pines, Columbus, Lino Lakes, and Lexington. Provides that the grant agreement must require that at least 10 percent of the costs be paid for by the participating cities. Describes the scope of the feasibility study.

Requires a report to legislature by January 15 of the year following completion of the study.
