### Overview

This bill applies the laws for determining paternity to the determination of maternity and creates a determination for maternity and paternity where an assisted reproduction agreement was created before the pregnancy.

#### Section

- 1**      **Maternity.** Adds a subdivision to the existing statute to apply the laws for determining paternity to the determination of maternity.
- 2**      **Birth Mother.** Changes the provision of law giving an unmarried mother custody of a child from “biological” mother to “birth” mother. Creates an exception that this law does not apply in contested cases where assisted reproduction was used to conceive the child and a written agreement was entered prior to the pregnancy.
- 3**      **Paternity.** Adds a provisions to the current law creating a presumption of paternity so that a man is presumed to be the father if he was intended to be the legal parent of a child conceived by assisted reproduction pursuant to a written agreement entered into prior to the pregnancy.
- 4**      **Effective date.** These changes apply to actions filed on or after August 1, 2013.
