### Overview

House File 843 allows a utility or cooperative association that meets its annual energy-savings goal (1.5 percent of retail electric sales; 1.0 percent of retail natural gas sales) but has spent less than the required amount to do so (1.5 percent of electric gross operating revenues; 0.5 percent for natural gas) to retain two-thirds of the unspent funds, provided that the utility contributes the other one-third to energy programs benefiting low-income ratepayers.
