Overview

This bill is the transportation policy omnibus, as it would be amended by the proposed H1416DE1 delete-all amendment.

Section

- 1** **Commissioner may establish program.** Expands eligible types of businesses to include attractions under MnDOT's logo sign program for advertising along interstates and controlled access trunk highways.
- 2** **Eligibility criteria for business panels.** Makes various changes in the requirements for businesses that advertise in the logo sign program. Sets requirements for attractions that are authorized to advertise under section 1 of the bill.
- 3** **Franchises.** Makes conforming changes.
- 4** **Trunk highway emergency relief account.** Allows funds in the trunk highway emergency relief account to be expended for operations and maintenance related to a disaster. Removes a requirement that account interest be credited to the account.
- 5** **Route No. 298.** Removes a portion of Trunk Highway 298 in Faribault from the trunk highway system, which would have it terminate at the campus of the Minnesota State Academy for the Blind.
- 6** **Route No. 339.** Establishes a new trunk highway designation running east from Trunk Highway 36, which would provide for the Stillwater River Crossing.

Section

- 7 **Special account.** Expands the permissible uses of funds from an account for parking ramps owned by MnDOT at the terminus of I-394 in Minneapolis. Uses would expand to include work on MnPASS lanes and associated technology improvements for users of the ramps.
- 8 **Officer Tom Decker Memorial Highway.** Designates a segment of Trunk Highway 23, from Richmond to east of Cold Spring, as “Officer Tom Decker Memorial Highway,” and directs the Department of Transportation to erect appropriate signage. The signs must be paid for through nonstate sources of funds.
- 9 **Variations from rules and engineering standards.** Modifies the process for requesting variations from engineering standards for the county state-aid highway system, to eliminate publication of the request in the State Register and to only require hearings only after request denial.
- 10 **Variations from rules and engineering standards.** Modifies the process for requesting variations from engineering standards for the municipal state-aid street system, to eliminate publication of the request in the State Register and to only require hearings only after request denial.
- 11 **Money needs defined.** Amends the calculation of money needs to eliminate exclusion of certain county roads with a combination designation across road jurisdictions (which is no longer used). Money needs are used in a formula-based allocation of municipal state-aid street funds among cities.
- 12 **12 uniform registration periods.** Modifies passenger vehicle registration to clarify a minimum period of 12 consecutive months for registration, and to remove a provision on evenly spreading registrations throughout the year.
- 13 **Exceptions.** Amends exceptions from the 12-month period of registration typically required for passenger vehicles.
- 14 **Application; fee; penalty.** Establishes that in-transit licenses for transporting motor vehicles are available only within Minnesota and do not cover registering the transporting vehicle. Makes technical changes.
- 15 **Design.** Removes the special World War I plate and modifies the plate design for various special veterans’ plates to eliminate stacked letters next to the plate’s alphanumeric sequence.
- 16 **Payment of taxes.** Modifies provisions governing trucks and buses owned by non-residents and used part of the year within Minnesota. Makes technical changes.
- 17 **Trip permit.** Modifies requirements of a trip permit under the International Registration Plan (IRP) program to limit the permit to one per vehicle for a 30-day period. (The IRP program is for commercial vehicle registration tax collection and proportional distribution of revenues across multiple jurisdictions (states and countries) where the vehicle is operated.)
- 18 **Used vehicle parts dealer.** Clarifies that a “used vehicle parts dealer” can sell used parts

Section

and remaining scrap from a vehicle, and prohibits them from selling new or used motor vehicles. (This category represents a license issued by the Department of Public Safety to businesses that dismantle vehicles and sell the parts and scrap. The department issues various licenses for dealers engaged in businesses involving motor vehicle and vehicle parts sales, dismantling, and scrap processing.)

- 19 Place of business.** Amends the business office requirements for “limited used vehicle” licensees to include commercial office space or an automatic phone answering service. (Limited used vehicle licensees are nonprofit organizations that acquire and sell donated vehicles.)
- 20 Dealers’ license; location change notice; fee.** Removes mandatory denial of a vehicle dealer license when it had previously been denied within a year.
- 21 School bus.** Clarifies that the definition of a “type III vehicle” includes passenger vehicles (and not just certain types of passenger autos). Such vehicles are used by schools in some situations to transport small groups of pupils, following pupil transportation regulations.
- 22 Local authority.** Authorizes local road authorities to prohibit flashing red lights from being used on vehicles for funeral processions, escorting oversize or heavy equipment, or other processions.
- 23 Passing on the right.** Prohibits a motor vehicle from passing on the right by driving in a bicycle lane. (Under the traffic regulations in state statutes, a “bicycle lane” is a portion of the roadway or shoulder that is marked for use by bicyclists. Minn. Stat. § 169.011, subd. 5.)
- 24 Laned highway.** Clarifies that a motor vehicle may drive in a bicycle lane when performing parking maneuvers.
- 25 Turning at intersection.** Modifies driving rules for making turns that cross into an adjacent bicycle lane, so that a driver must (1) signal prior to making the movement, (2) yield to bicycles, (3) obey traffic control signs and markings.
- 26 Manner and number of riding.** Modifies requirements on bicycle passengers, including extending limitations on number of passenger to apply to various types of bicycles as well as trailers.
- 27 Riding rules.** Removes a bicycle riding rule to ride at the right-hand curb or edge of the road, if riding on a shoulder or in a bicycle lane.
- 28 Bicycle equipment.** Modifies bicycle equipment regulations, including expanding lighting equipment that can be used to meet nighttime bicycle lighting requirements, permitting coaster brakes, and allowing a horn or bell on a bike.
- 29 Prohibitions.** Prohibits stopping, standing, or parking in:
- ▶ a bicycle lane, unless parking is allowed by posted signs; and
 - ▶ the access aisle for a disability parking spot.

Section

- 30 Disability parking when designated spaces occupied or unavailable.** Permits a vehicle that has disability plates or a certificate to be parked in manner that takes up two parking spaces when other designated disability parking is unavailable.
- 31 Disability parking space signs.** Requires, in the regulations on signage for disability parking, that the parking signs be non-moveable, which would no longer allow a sign that is moveable by authorized personnel.
- 32 Personal cellular phone call prohibition.** Amends a prohibition on using a cell phone for personal reasons when operating a school bus to include times when the vehicle is part of the flow of traffic (such as at a stop light).
- 33 Driver seat belt.** Clarifies a requirement that drivers of a school bus must use a seat belt, to specify that the seatbelt be fastened and properly adjusted, and that both the shoulder and lap portions secure the driver.
- 34 Option.** Amends and clarifies a provision governing warning and safety equipment that may be carried in a type III vehicle so that the provision applies to all type III vehicles.
- 35 Horn, siren.** Establishes that a bicycle can be equipped with a horn or bell.
- 36 Valid medical examiner's certificate.** Requires that a medical examiner's certificate be issued by an examiner who is (1) certified by the federal agency that oversees motor carrier safety, and (2) listed in a national registry maintained by the agency. (This certificate is used to confirm physical eligibility to operate commercial vehicles and is among the requirements to obtain a commercial driver's license.) The change is effective May 1, 2014.
- 37 Identification card for seniors.** Prevents a provision on Minnesota identification cards for persons over age 65 (which are specially marked and provided at a reduced cost) from applying for enhanced identification cards. Enhanced identification cards contain additional security features compared to a traditional card, and can be used in a similar manner as passports for international border crossings.
- 38 Expiration.** Prevents an enhanced identification card issued to a person age 65 or older from being valid for the lifetime of that person.
- 39 Transportation ombudsperson.** Creates a position of ombudsperson in the Minnesota Department of Transportation, codified in statute. Outlines basic powers and duties of the position, sets reporting and appointment requirements, and restricts the person from holding other positions within the department as well as from charging a fee for services.
- 40 Method of payment, assistance.** Allows MnDOT, in conjunction with the repealer in section 50, paragraph (b), of the bill, to determine the timing of payments to public transit providers for operating assistance.
- 41 [174.45] Public-private partnerships; joint program office.** Authorizes MnDOT to create a joint office for developing public-private partnerships involving public infrastructure, and directs other state agencies to provide assistance upon request.

Section

- 42 Uniform warning signs.** Amends the types of uniform signs that can be placed at railroad crossings, including allowing a yield sign and modifying terminology for sign types.
- 43 Railroad to erect sign.** Decreases the maximum distance from a railroad crossing that crossbuck signs must be placed and maintained by railroads, from 75 to 50 feet. Provides for MnDOT to authorize a greater distance.
- 44 Stop sign; yield sign.** Clarifies when requirements apply for placing stop signs or yield signs at railroad crossings, to exclude crossings that are equipped with flashing lights or with lights and gates. Makes conforming changes.
- 45 Qualification of driver.** Sets who can qualify as a “medical examiner” to perform a physical exam as part of commercial driver’s license requirements. Effective May 21, 2014, an examiner must be certified by the federal agency that oversees motor carrier safety and must be listed in a national registry maintained by the agency.
- 46 Waiver for other medical condition.** Modifies waivers from physical requirements to operate a commercial motor vehicle, to (1) reduce the number of situations where a waiver may be granted, and (2) eliminate a three-year disqualification period during which the person can not have been convicted for various offenses.
- 47 Conveyance of state land; Le Sueur County.** Authorizes the Minnesota Department of Transportation (MnDOT) to sell land near Trunk Highway 169 in Le Sueur County to a private entity outside of typical valuation and bidding processes for such land sales. Identifies the tract of land and specifies conditions for the conveyance, including a price that matches the costs of a comparable rest area facility, certain approval by the Attorney General, deposit of revenues in an account for rest areas, and meeting any other conditions set by MnDOT.
- 48 Legislative Route No. 235 removed.** Turns over Trunk Highway 235, from Urbank to Parkers Prairie in Otter Tail County, to be a County State-Aid Highway, effective following agreement between the county and MnDOT and notification to the Revisor of Statutes.
- 49 Legislative Route No. 256 removed.** Turns over Trunk Highway 66, which runs from Good Thunder to Mankato, to become part of the state-aid system, effective following agreement between Blue Earth county and MnDOT and notification to the Revisor of Statutes.
- 50 Repealer.** (a) Repeals a provision directing the timing of MnDOT payments to public transit providers over the course of the year, which is replaced with discretionary authority in section 40 of the bill.
- (b) Makes a conforming change to the elimination of publishing engineering variance requests being made in sections 9 and 10, to repeal an administrative rule.
- (c) Repeals a provision on one-way trip permits for nonresidents to transport motor vehicles from outside the state to another point outside the state.
- 51 Effective date.** Sets an effective date of August 1, 2013, for provisions that do not have

Section

another date designated.
