Subd. 1. During heating season. Subd. 1. Minimum delivery. During the heating season, prohibits propane distributors from requiring per delivery purchases exceeding 150 gallons for customers with a tank capacity of 500 gallons or less, or 200 gallons if the tank is larger. Outside the heating season, purchases may not be required to exceed the lesser of 250 gallons or 35 percent of the tank capacity. An additional fee can be charged to a customer purchasing these minimum amounts only if the customer has agreed to the fee under a payment agreement or budget payment plan.

Subd. 2. Cannot refuse certain sales. Prohibits propane distributors from refusing to sell propane to a customer who pays in cash, with a money order or certified or cashier's check, or who receives energy assistance from LIHEAP or elsewhere. If a customer's account is delinquent, the propane distributor must apply 25 percent of any payment to the delinquent bill.

Subd. 3. Minimal usage. Prohibits propane distributors from charging a fee to a customer for failing to consume a minimal amount of propane over a given period of time.

Subd. 4. LIHEAP participation and payments. Requires propane distributors to make information about LIHEAP available to customers, accept LIHEAP payments, and deliver the full amount of propane paid for with LIHEAP funds.
