Overview

Directs school boards to ensure that the paraprofessionals they hire to work with students with disabilities have sufficient knowledge and skills to meet students' disability-specific and behavioral needs and understand how a student's unique and individual needs and disability affect the student's education and behavior.

Section

- 1 Individualized education programs.** (c) Directs school boards to ensure that: the paraprofessionals they hire partly to provide direct support to students with disabilities have sufficient knowledge and skills to begin meeting the disability-specific and behavioral needs of the students they work with; and training is provided to enable the paraprofessionals to understand how each student's unique and individual needs and disability affect the student's education and behavior.
