This bill would require a drivers' license or a Minnesota identification (ID) card issued to a person who has purchased a lifetime license to hunt/fish to include a designation indicating the hunting/fishing license on the license/ID card. A person would be allowed to use the drivers' license or ID card as proof of having the proper license for purposes of requirements to possess the proper license when hunting/fishing.

Requires the Department of Public Safety to maintain records it receives from the Department of Natural Resources indicating individuals who have purchased lifetime licenses for purposes of the lifetime hunting/fishing designations.
