Bill Summary

FILE NUMBER: H.F. 672   **DATE:** February 18, 2015
          Version: As introduced

          Authors: Anderson, S., and others

          Subject: Allowing a computer science course to fulfill a math credit requirement

          Analyst: Lisa Larson

Overview

Allows students to satisfy a math credit required for high school graduation by taking a computer science course that meets state math standards.

Section

1   **Credit equivalencies.** Allows a computer science credit to fulfill a math credit required for high school graduation if the computer science course meets the state's academic standards in math.

          Makes this section effective for the 2015-2016 school year and later.
