### Overview

The Warroad school district operates a one-room schoolhouse located on the Northwest Angle called the Angle Inlet School. The school is quite isolated and serves a very small number of students. According to the reported fall 2015 enrollment counts, the school serves 12 students in grades kindergarten through grade 5. Because the school is so small and remote, the school receives a line item appropriation of \$65,000 per year to defray a portion of the operating costs of the school.

This bill requests a capital grant of \$700,000 from the state's bond proceed fund to the Warroad school district to construct, furnish and equip an expansion to the school.

### Section

- 1 Angle Inlet School expansion.** Appropriates \$700,000 from the bond proceeds fund to the commissioner of education for a grant to the Warroad school district for school construction projects at the Angle Inlet school.
