Article 2

State Government

- 1** **Districting principles.** Establishes statutory principles to be used in the redistricting process for both congressional districts and state legislative districts. The details of the principles are listed in priority order for implementation. The principles include a requirement that legislative districts be substantially equal in population, with a deviation of no more than 0.5 percent from the ideal district population. Requires that the legislature draw new districts, and prohibits delegation of that authority to any entity that is not comprised solely of members of the legislature.
- 2** **Fiscal notes and revenue estimates.** Provides that the legislative auditor shall participate in the fiscal note and revenue estimate process in the manner described in section 3.98. Provides that authority of the auditor and duties of entities subject to the auditor’s other work also apply to fiscal notes and revenue estimates.
- 3** **Evaluation of economic development incentive programs.**

 - Subd. 1. Definitions.** Defines “general incentive” and “exclusive incentive” for purposes of this section.
 - Subd. 2. Selection of general incentives for review; schedule.** Requires the Legislative Auditor to annually submit to the Legislative Audit Commission a list of three to five general incentives proposed for review. Requires the Legislative Audit Commission to select at least one general incentive for the legislative auditor to evaluate.
 - Subd. 3. Exclusive incentive schedule.** Provides that the legislative auditor’s schedule shall ensure that at least once every four years the legislative auditor will complete an analysis of best practices for exclusive incentives.
 - Subd. 4. Evaluation plans.** Requires the Legislative Audit Commission to establish evaluation plans that identify elements the Legislative Auditor must include in evaluations of general and exclusive incentives.
- 4** **Fiscal notes and revenue estimates.** Provides that upon receiving a request for a fiscal note or revenue estimate, the legislative auditor shall request appropriate agencies to provide the legislative auditor with an analysis of the financial and personnel impacts of the bill. Requires agencies to submit the analysis in the time and manner requested by the auditor.

Requires the legislative auditor to review the analysis submitted by agencies and assess the reasonableness of the analysis. Authorizes the auditor to require agencies to resubmit their analysis under new assumptions or calculation parameters defined by the auditor.

Provides that when the auditor accepts the final analysis for all relevant agencies, the auditor shall deliver the completed fiscal note or revenue analysis. Requires that the note or estimate contain the final analysis and assumptions submitted to the auditor by agencies, and a statement by the legislative auditor as to whether the auditor agrees with the final analysis and assumptions. Requires the auditor to state reasons for any disagreements, and authorizes

Section

the auditor to offer alternative analysis and assumptions. Provides that if the auditor deems disagreements sufficiently large, the auditor may submit an unofficial unapproved fiscal note to the legislature, for public consideration of both the analysis of the agency and that of the auditor.

- 5 Local impact notes.** Provides that the legislative auditor, rather than the commissioner of management and budget, shall coordinate the development of local impact notes.
- 6 County audits.** Proposes a new section of law governing county audits. The current section (6.48) is repealed at the end of this article. The primary substantive difference between the current law and this new language is that a county may choose to have an audit performed by the state auditor or may choose to have the audit performed by a CPA firm. If a county chooses to have an audit performed by a CPA firm, the audit must meet standards required by the state auditor. The auditor may require additional information from the CPA firm, but must accept the audit unless the auditor determines it does not meet industry standards. Provides that the auditor may make additional examinations, and that the county will pay the auditor for these additional examinations.
- Provides that data relating to an audit performed by a CPA firm are subject to the same data classification that apply to audits performed by the state auditor, and that the CPA firm must provide access to the audit, and is liable for unlawful disclosure of data, as if it were a government entity.
- Specifies procedures to be followed if a county switches between the state auditor and a private CPA firm.
- 7 Telephone use; approval.** Provides that the requirement for a legislator, constitutional officer, judge, and agency head to sign the person's monthly long-distance phone bill does not apply to a month in which the bill paid by the state is less than \$5. Provides that the person is responsible for paying any portion of the bill that does not relate to state business, even if the amount is less than \$5.
- 8 Noncampaign disbursement.** This article repeals the state elections campaign fund, which provides public financing of election campaigns for governor, lieutenant governor, attorney general, secretary of state, state auditor, and state legislative races. The public campaign subsidy program that those funds were used for is also repealed. Laws related to implementation of the public subsidy program are eliminated as well, including those setting campaign spending limits for candidates who agree to accept the public subsidy. This section is the first of several, including parts of the repealer section, that relate to this issue.
- 9 Single committee.** Related to repeal of state elections campaign fund and public campaign subsidy program, described above.
- 10 Anonymous contributions.** Related to repeal of state elections campaign fund and public campaign subsidy program, described above.
- 11 Termination by board.** Related to repeal of state elections campaign fund and public campaign subsidy program, described above.

Section

- 13** **Captioning of campaign advertisements.** Related to repeal of state elections campaign fund and public campaign subsidy program, described above.
- 14** **Substantial economic impact.** Defines when a rule has a “substantial economic impact”. This definition is used in later sections, including a section which requires a panel review of proposed rules with substantial economic impact, and which provides that rules with substantial economic impact do not take effect until approved by law.
- 15** **Authority to adopt original rules restricted.** Provides that an agency may adopt, amend, suspend, or repeal its rules only pursuant to authority delegated by state or federal law.
- 16** **Authority to modify proposed rules.** Under current law, an agency may not modify a proposed rule at the end of the rulemaking process so that it is substantially different from the rule that was proposed in the agency’s notice of intent to adopt the rules at the beginning of the process. This section provides that a modification makes a rule substantially different if it causes a rule that did not previously have a substantial economic impact to have a substantial economic impact.
- 17** **Notice to legislature.** Requires that each agency annually must submit its rulemaking docket to the Legislative Coordinating Commission, in addition to the other legislative officials specified in current law. Requires each agency to post a link to its rulemaking docket on the agency Web site home page.
- 18** **Legislative approval required.** Provides that before giving notice of intent to adopt a rule, the agency must determine if the proposed rule has a substantial economic impact.

If the agency determines that the rule has a substantial economic impact, it must request the Legislative Auditor to convene a five-person advisory panel to conduct an impact analysis of the proposed rule. Requires the Legislative Auditor to convene a panel within 30 days, and requires the panel to report within 60 days of being convened. Requires the agency to receive the panel’s report before it conducts a public hearing (or if no hearing is required, before the rule is submitted to the administrative law judge). Requires the panel’s report to include findings on the extent to which the proposed rule: (1) is based on sound, reasonably available information or rationale; and (2) is more restrictive than federal law on the same subject matter.

Requires the administrative law judge to review the agency’s determination that a rule does not have a substantial economic impact. If the judge determines that a rule may have a substantial economic impact, the agency must go through the review panel process and must give new notice of intent to adopt the rule after receiving the advisory panel report.

Provides that a rule that has a substantial economic impact does not take effect until approved by law.

Language in current law relating to the effect of a rule on small businesses or small cities is stricken. The small business and small city concepts are incorporated into the definition of “substantial economic impact”. Strikes language that gives the governor authority to waive application of this section.

- 19** **Statement of need and reasonableness.** In the law governing agency statements of need and reasonableness (SONAR), refers to additional statutes under which notice of proposed rules is given to the public. Requires the SONAR to include the agency’s findings and

Section

conclusions supporting its determination that the proposed rule does or does not have a substantial economic impact. Requires the SONAR to describe the information and rationale that supports the proposed rule.

- 21 Notice and comment.** Requires that an agency proposing to use the expedited process to adopt a rule give notice of this to the chairs and ranking minority members of legislative policy and budget committees with jurisdiction over the subject matter of the proposed rules, and to the Legislative Coordinating Commission.
- 22 Determination of validity of rule.** Authorizes a petitioner to seek Court of Appeals review of an agency guideline, bulletin or similar pronouncement that the petitioner believes should have been adopted as a “rule”. Provides that the agency must cease enforcement of the pronouncement until the Court of Appeals rules on such a petition. Provides that the agency is liable for all costs associated with review of the decision. If the Court of Appeals rules in favor of the agency, the agency may recover all or a portion of the cost from the petitioner, with specified exceptions.
- 23 Rule declared invalid.** Authorizes the Court of Appeals to declare an agency pronouncement invalid if it was improperly implemented without complying with rulemaking procedures.
