This bill requires the commissioner of revenue to study options for providing a free electronic option for filing individual income taxes. As part of the study, the commissioner is required to seek information from private tax filing software vendors. A list of specific information that must be requested is included in the bill.

The commissioner must report the study's results to the legislative committees with jurisdiction over taxes no later than March 16, 2018. A one-time, \$175,000 appropriation is included to support the study's costs.
